Good or Bad?

2018 4-H PROJECT PORTFOLIO PROJECT PLANS TRAINING

What I want to do and learn I this project (goals):

This year, in my project, I would like to learn new things about my newer animals.

What I learned (knowledge and skills):

I learned different ways to handle and care for each one of my animals.

What I want to do and learn I this project (goals):

My goal is to become a more competitive cross country runner by increasing my tri-weekly, training runs by one mile by the end of the semester.

What I learned (knowledge and skills):

I was able to improve my run time from 24-minutes to a consistent 22-minutes and place in 11 competitive events.

What I want to do and learn I this project (goals):

I want to improve my math skills and raise my test scores by using math tutoring sessions.

What I learned (knowledge and skills):

I learned several new math skills which helped me to raise my overall class grade.

What I want to do and learn I this project (goals):

I would like to learn how to input button holes in my clothes that I sew.

What I learned (knowledge and skills):

By working with my mom and 4-H agent, I learned how to make button holes and put 18 in clothes that I made throughout the year.

What I want to do and learn I this project (goals):

I would like to run for a 4-H Congress office in 2018.

What I learned (knowledge and skills):

I learned that networking is an important part of any campaign.

What I want to do and learn I this project (goals):

I want to win the 10th grade State 4-H Public Speaking contest.

What I learned (knowledge and skills):

I learned how to lose gracefully.

What I want to do and learn I this project (goals):

I would like to assist a professional photographer with a photoshoot.

What I learned (knowledge and skills):

I was not able to schedule with a professional photographer, but I did get to sit in and watch a photoshoot.

What I want to do and learn I this project (goals):

Now that I have been in the Honor Club for two years, I plan to take more opportunities to help new members of the group with various activities.

What I learned (knowledge and skills):

It is important to speak kindly and be patient when working with others. It is nice to help others just as the other 4-H'ers have helped me.

What I want to do and learn I this project (goals):

I plan on expanding my knowledge about sheep - including everything you do before, during and after shows - and spending a lot more time working with them and getting to take care of them on an almost daily basis.

What I learned (knowledge and skills):

This year, I learned about the every day care of sheep including feeding, how to catch and put a halter on them, a little bit about shearing them, and how to set up sheep for show time.

What I want to do and learn I this project (goals):

I would like to earn enough money to purchase a 3-D printer.

What I learned (knowledge and skills):

I learned how to successfully set up, program and use a 3-D printer. I used it to print two keychains.
